

Call for Tutor Pool

The Webb Schools is seeking to create a pool of highly qualified and experienced tutors. While most of our students' academic needs are met through interaction with our faculty in the classroom, in office hours, in evening labs, and beyond, there are rare occasions when we feel a student needs additional support in a particular subject or skill. With this in mind, the Schools maintains a tutor pool of approved and vetted tutors who are cleared to work on our campus.

Academic tutors should have a BA/BS in a relevant discipline or be strong juniors and seniors currently enrolled in college or university. All tutors will need to apply for and receive clearance in order to work on our campus. Tutors are allowed to work in our campus facilities and are asked to communicate with faculty and administration involving the progress of their students. Tutors are considered independent contractors and paid directly by families.

In order to apply to be part of our tutor pool, interested individuals should send their resume and references to the Director of Studies, Michael Hoe at careers@webb.org
